

# XDelivery™ Platform for Manufacturing

Maximise the effectiveness of your service teams

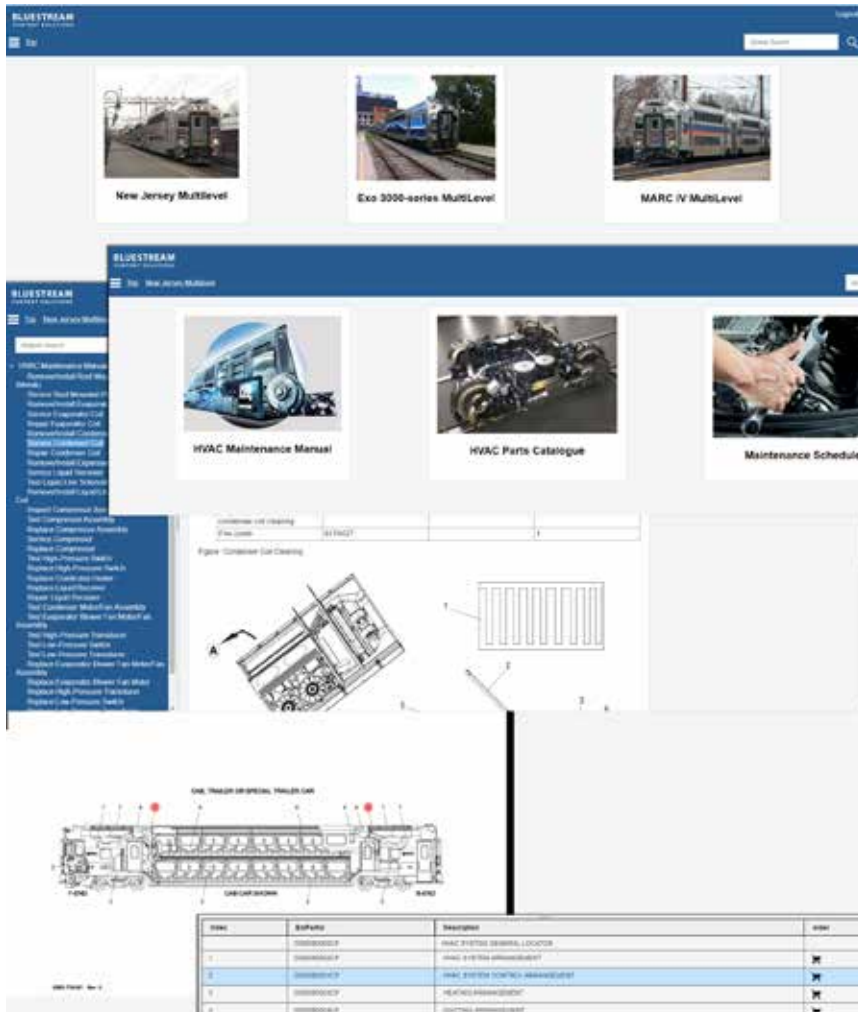

**Keep your machines running — XDelivery** from Bluestream provides intelligent delivery of all your repair and maintenance documentation.

## **XDelivery publishes feature-rich content directly from your XDocs CCMS:**

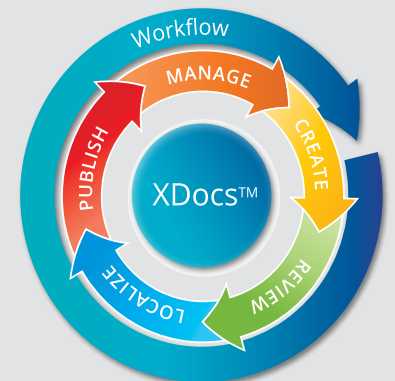

- Create Maintenance Schedules, IPCs (Illustrated Parts Catalogs), IETMs (Interactive Electronic Technical Manuals) and more using XDocs DITA CCMS.
- Automate the pull of approved content directly from your source server.
- Upload and fully index all your unstructured content including PDFs.
- Then configure XDelivery to build your own Interactive Service Portal.
- Link IPCs and other content back to fulfillment systems.
- Package your product content with your brand and style.
- Enjoy enterprise class content delivery from an enterprise class CCMS.
- Interact with internal and external content consumers.
- Integrate with JIRA, Salesforce, Zendesk, PLM, ERP systems and other tools in your content lifecycle.
- Provide your content consumers with rich faceted search.
- Display your multimedia and multilingual content.
- Serve up relevant content with variable user permissions and Let your content adapt to the screen size.

## Enterprise class content delivery from an enterprise class CCMS

XDocs CCMS offers all the tools and benefits of intelligent, structured content – efficiency in creating, updating, and managing source language and translated content – and now XDelivery offers you parallel efficiency in delivering your content to your customers, maintenance teams and all your other content consumers.

*With XDelivery, your customers can easily search, browse, find, and share your approved knowledge assets faster and more efficiently in HTML, PDF, eBook and other formats from any device.*

*Control every step of your content lifecycle with unparalleled agility. XDocs provides you with an enterprise end-to-end content solution.*

## Fulfillment

XDelivery connects to your manufacturing systems including ERP, PLM and fully supports parts ordering.
