XDocs DITA CCMS

XDocs DITA CCMS is the leading single vendor solution for companies who want to improve and enhance their information workflow.

XDocs CCMS is a standards compliant single-sourcing solution that enables everyone within the organization to create, manage, store and intelligently publish large volumes of both XML and non-XML content. Unique XDocs Connectors™ help you to link all your data sources, making them accessible to everyone involved in the content life-cycle. This creates new opportunities for collaboration and enables customer specific delivery across any device or platform and in any language.

A competitive pricing model enables organizations of all sizes to realize the benefits of a flexible and adaptable enterprise class platform. While our rapid deployment methodology will get you up and running faster than you would believe possible.

End-to-end

XDocs provides a complete solution. Your content team can create, review, find, update, manage, localize and deliver content with unparalleled agility.

Solutions for all your content challenges

Delivering content for different audiences, languages, and publish outputs is easy. Delivery is agile, automated, and responsive.

Easy-to-deploy

Out-of-the-box XDocs is fully functional and feature rich. Customization is simple and it can be installed and deployed in hours.

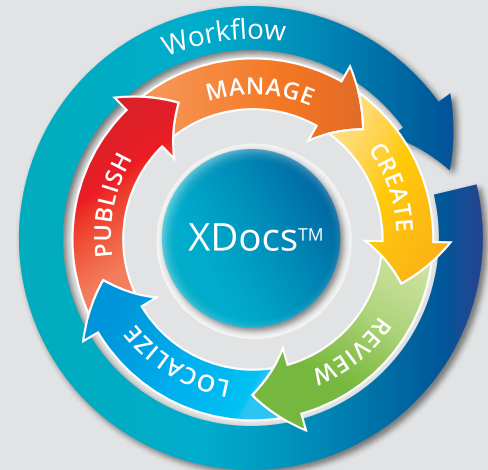

Incomparable value

Whether your team comprises members spread across the globe or a couple of content creators working in the same office; XDocs delivers incomparable value – allowing you to deliver the most up-to-date content to your customers. XDocs is the most affordable, complete DITA CCMS.

- **Connect** – XDocs Connectors let you import content into XDocs making it instantly available to your authoring team.
- **Find** – Advanced metadata management, support for taxonomies, ontologies and XPath 2.0 make finding content easy.
- **Author** – Connect to your favorite XML Authoring Application and then browse/search and check-in/check-out content from XDocs.
- **Link Management** – All links, cross references etc. automatically validated on check-in/check-out.
- **Report** – Built in reports and easy to use report builder.
- **Control** – BPMN 2.0 compliant workflow engine for extra control over processes, design your workflows within XDocs or import them from other systems.
- **Review** – Easy on-line review and collaboration using WEX – Bluestream’s custom web app. Bring your SMEs (Subject Matter Experts) into the content life-cycle.
- **Localization** – Industry leading localization control – connect directly to your LSP (Language Service Providers) and automatically round-trip content.
- **Content Delivery Portal** – Bluestream have developed XDelivery – our own delivery platform that enables you to build document libraries and portals, interactive service delivery portals and more with content coming directly from the XDocs database.

Maximize the value of all your content

XDelivery supports the upload and indexing of your legacy documents including PDFs. Your readers can then search, browse, find, and share **all** your approved knowledge assets faster in both HTML and PDF.

Control every step of your content life-cycle with unparalleled agility.

XDocs CCMS provides you with an end-to-end enterprise content solution.
