# XDocs WEX™

simple browser based content creation and review

Accurate documentation development relies on SME (Subject Matter Expert) contribution, but within a DITA workflow this has always proved difficult.

- Streamline the collaboration process.
- Minimize SME disruption.
- Reduce the time taken to approve content.
- Enable SMEs to create DITA content without having to learn complex tools.
- Eliminate the risk of inaccuracies.
- Full audit trail.

SMEs do not have the time, or desire to learn XML authoring. As a result Writers have had to rely on PDF mark-up, MS Word track-changes, or email exchanges. These approaches are slow and can also lead to errors leading to another review cycle.

Bluestream WEX lets all parties involved in content creation contribute in a meaningful way. With WEX SMEs can quickly review and approve content, share ideas and much more all in a simple web browser.

## End-to-end

XDocs DITA CCMS provides a complete solution. Your content team can create, review, find, update, manage, localize and deliver content with unparalleled agility.

## Solutions for all your content challenges

Delivering content for different audiences, languages, and publish outputs is simple. Delivery is agile, automated, and responsive.

## Easy-to-deploy

Out-of-the-box XDocs DITA CCMS is fully functional and feature rich. Customization is simple and it can be installed and deployed in hours.

**WEX** is a web-based application for the online review and contribution of DITA content. The premise behind the app's development is simple – no training or installation required. The target audience for this application is anyone in the organization who needs to be part of the content lifecycle.

With **WEX** SMEs can be notified by email when their input is required. A simple interface displays outstanding tasks.

Marking up changes and adding notes replicates the experience of standard authoring applications and no additional learning is required.

All mark-up and annotations are created as DITA and are immediately viewable by other Users and on other tools. Such as the Technical Author using desktop Oxygen Author.

With **WEX** anyone can create new DITA Topics – without the need for additional training.

**WEX** solves the problem of how to include SMEs and others in the in the content workflow.

Find out how **Bluestream** can revolutionize your content.
