

XDocs™ DITA CCMS

get all your content under control

XDocs DITA CCMS – the leading single vendor solution for companies who want to improve and enhance their information workflow.

XDocs DITA CCMS is a standards compliant single-sourcing solution that enables everyone within the organization to create, manage, store and intelligently publish large volumes of both XML and non-XML content.

Unique XDocs Connectors™ help you to link all your data sources, making them accessible to everyone involved in the content life-cycle. This creates new opportunities for collaboration and enables customer specific delivery across any device or platform and in any language.

A competitive pricing model enables organizations of all sizes to realize the benefits of a flexible and adaptable enterprise class platform. While a unique rapid deployment methodology ensures go-live in the minimal amount of time.

End-to-end

XDocs DITA CCMS provides a complete solution. Your content team can create, review, find, update, manage, localize and deliver content with unparalleled agility.

Solutions for all your content challenges

Delivering content for different audiences, languages, and publish outputs is simple. Delivery is agile, automated, and responsive.

Easy-to-deploy

Out-of-the-box XDocs DITA CCMS is fully functional and feature rich. Customization is simple and it can be installed and deployed in hours.
