< What is it? >

XDocs DITA CCMS is the leading 'single-vendor' solution for companies who want to improve and enhance their information workflow.

XDocs DITA CCMS is a standards-compliant single-sourcing solution that enables everyone within the organization to create, manage, store, and intelligently publish large volumes of both XML and non-XML content.

Unique XDocs Connectors™ help you to link all your data sources, making them accessible to everyone involved in the content life-cycle. This creates new opportunities for collaboration and enables customer-specific delivery across any device or platform and in any language.

< Incomparable value >

Whatever your team size, XDocs DITA CCMS delivers incomparable value. Enabling organizations of all sizes to realize the benefits of a flexible and adaptable enterprise-class platform, allowing you to provide the most up-to-date content to your customers.
